

MACBOOK PROGRAM

MacBooks for each student.

Every student at PCHS is provided with their own filtered Apple MacBook for use at school and at home, just one of the many ways that we utilize advanced technology at PCHS.

- Each MacBook comes with **full warranty and insurance**. Contact our Tech team for more details about the provided coverage.
- Students receive full **support from our dedicated Tech team**, and each MacBook comes supplied with all the necessary software to help our students excel.
- Our **state-of-the-art wireless network** allows our teachers and students access to the internet anywhere on campus.
- Each MacBook has **integrated content filtering** to protect our students at school and at home.
- **Financial aid is available** to help cover the monthly MacBook lease fee. Students have the option of purchasing their MacBook after graduation for a small fee (just \$1 for most four-year students).
