

GUIDANCE

Trained advisors by your side.

Our Guidance Department is dedicated to walking alongside each student at PCHS for every step of their high school journey and beyond. Guidance is committed to helping students thrive in every area of their lives, both in and out of the classroom.

- Our advisors provide **full academic and social support** for students by assessing their progress, connecting them with teachers for one-on-one assistance, and by providing a multitude of resources to help them succeed.
- Guidance coordinates **peer and group tutoring** for students. Peer tutors that excel in certain subjects are available to assist their peers with assignments as needed.
- Excellent **ACT and SAT preparation** resources are available for students. Guidance also provides support for other standardized tests including the ASVAB, PERT, and other **career interest assessments**.
- Our Guidance Department has a great track record in helping students secure **college scholarships and grants**. Graduating classes at PCHS are offered an average of \$15,000,000 in scholarships and grant money.
