

FINANCIAL Aid

Making a way for quality education.

Families are often surprised to learn just how many scholarships and financial aid opportunities are available to help provide the best possible education for their children. Read about some of these opportunities below.

- **Step Up For Students** is a state-funded scholarship program that offers an average of over \$7000 per year per student towards a private K-12 education.

Recent changes to eligibility have made these scholarships available to any resident of the State of Florida. Visit **stepupforstudents.org** to apply or for more information.

- The **FES-UA Scholarship** is a state-funded scholarship for students with an identified learning disability.
- PCHS also offers our own financial aid to assist those in need with tuition fees or laptop fees. Contact the finance office for more information.
