I am so proud to be a Crusader as it means I am surrounded by people who want everyone to succeed and have a strong sense of helping others. The commitment to excellence and service to others makes CHS feel special whether it's in athletics, academics, or the Pensacola Community at large.

I like that CHS has helped shape me into the person I am today. Over the past four years, I have been surrounded by teachers and classmates who have always encouraged me to work hard and grow in my faith. Looking back on my time at Catholic High, I'm grateful for the opportunities, memories, and relationships that have prepared me for my future and will stay with me long after I graduate.

I am proud to be a Crusader because it means being a part of group of students and faculty who truly want to improve the lives of others while striving to become better people themselves. CHS offers a welcoming and supportive experience that is also academically challenging. It has allowed me to explore new things, discover what I am passionate about, and strengthen my faith and character.

I am proud to be a Crusader because I am getting a quality education while incorporating Love of the Lord into my learning. CHS has many qualities such as excellent teachers and staff, a variety of sports and clubs, and the incorporation of Catholicism into all aspects of what we do. This culminates in the best school experience for the students.

As parents of a recent graduate and a current Junior at Pensacola Catholic High School, we are grateful for the strong focus on faith, service, and high academic standards that has shaped our daughters. CHS has instilled in them character, teamwork, and a moral foundation that will guide them for life. Sending our children here was truly one of the best decisions we have made.

Pensacola Catholic High School prepared our four recent graduates with a faith-centered, God-based education that strengthened their character and gave them the confidence and opportunity to succeed in academics, athletics, and service. The superior faculty and staff set high expectations while supporting students for college and for real life–so they graduated ready to work hard, lead with integrity, and grow in purpose.
